Ministru kabineta noteikumi Nr.219

Rīgā 2009.gada 10.martā (prot. Nr.17 24.§)

Kārtība, kādā veicama obligātā veselības pārbaude

Izdoti saskaņā ar Darba aizsardzības likuma 15.panta pirmo daļu

I. Vispārīgie jautājumi

1. Noteikumi nosaka kārtību, kādā veicama obligātā veselības pārbaude (turpmāk – veselības pārbaude) tiem nodarbinātajiem, kuru veselības stāvokli ietekmē vai var ietekmēt veselībai kaitīgie darba vides faktori, un tiem nodarbinātajiem, kuriem darbā ir īpaši apstākļi.

2. Noteikumi neattiecas uz veselības pārbaudēm, kas veicamas jūrniekiem, karavīriem, gaisa kuģu apkalpes locekļiem un gaisa satiksmes vadības dispečeriem, kā arī Iekšlietu ministrijas sistēmas iestāžu un Ieslodzījuma vietu pārvaldes amatpersonām ar speciālajām dienesta pakāpēm.

3. Veselības pārbaudi veic personām:

3.1. kuras ir nodarbinātas vai kuras paredzēts nodarbināt darbā, kur viņu veselības stāvokli ietekmē veselībai kaitīgie darba vides faktori (1.pielikums);

3.2. kuras ir nodarbinātas vai kuras paredzēts nodarbināt darbā īpašos apstākļos – bīstamos darbos, kur pastāv augsts nelaimes gadījumu risks pašam nodarbinātajam vai apkārtējiem (2.pielikums).

4. Uz veselības pārbaudi šo noteikumu 3.punktā minētajos gadījumos nosūta:

Cabinet regulation No. 219

Riga on 2009 March 10 . No 17 24 . §)

Procedures by which mandatory health examinations shall be performed

In Programmes of the Law onlabour protection 15 , Paragraph one of

I. General questions

1 . Regulations prescribe the procedures for mandatory health examinations (hereinafter – Health Check) those employees whose health condition affects or may affect the working environment factors harmful to health , and those employees who work there are special circumstances .

2 . Regulations shall not apply to health checks to be carried out by the sailors , soldiers , air crew and air traffic controllers as well as Ministry of the Interior system institutions and the Prison Administration officials with special service ranks .

3 . The Health checks are carried out by persons :

3.1 . who are employed or who are due to be employed in work , where their health condition is affected by the working environment factors harmful to health (Annex 1) ;

3.2 . who are employed or who are due to be employed workin special circumstances – dangerous work where there is a high accident risk to the employee himself or others (2).

4 . These Regulations on health inspection during the 3 cases

Tilde launches new cloud services for automated translation

October 29, 2014

European language technology company Tilde is launching a new set of cloud services for automated translation at the world's largest localization conference, Localization World, in Vancouver on October 30-31. To meet the translation needs of global customers, Tilde has integrated intelligent machine translation services, next generation terminology services, and a huge library of multilingual data into a single online platform.

Users can now select from several Ready-to-Use MT systems for multiple domains and language pairs, or build their own MT system using Tilde's online facilities. For organizations with specialized requirements, Tilde offers to develop Custom MT systems tailored to a customer's needs, customized with user data, and securely integrated into their platforms. Tilde CEO Andrejs Vasiļjevs: "We are proud to provide a new breed of online services that unleash the power of the cloud for diverse translation needs. Our new services aim to satisfy the growing need for high quality automated translation, customized to specific requirements."
